SAMPLE SCHEDULE

SCHEDULE NOTES

- While the exact schedule changes from year to year and week to week based on subject matter expert availability and weather conditions, these topics are routinely covered at our field schools. A detailed schedule for the week will be provided upon arrival.
- There will be tests, quizzes, and projects; we are a field school after all! However, the pre/post-test is meant to measure how much you've learned over the course of a week. There is no need to study in advance; you're not supposed to know all of the material (that's why you are participating - to learn more)!
- Team and individual projects are introduced throughout the week and contribute to the friendly competition between teams at field school.
- Snacks/breaks are scattered throughout the day(s).

TUESDAY

9:00 AM
Arrive & Settle In
Welcome & Orientation
Pre-test

12:00 PM
Lunch
Biology of the Species
Species Management
General Ecology
Habitat Collections

6:00 PM
